ABSTRACTED-PUB-NO: JP2003088337A

BASIC-ABSTRACT:

NOVELTY - A liquid containing fish scales is obtained by melt/dissolution of fish scales in acidic water.

DETAILED DESCRIPTION - INDEPENDENT CLAIMS are also included for the following:

- (1) manufacture fish scale liquid, which involves dissolving and dispersing fish scales in acidic water;
- (2) a processed food containing the fish scale liquid; and
- (3) preparation of processed food, which utilizes the fish scale liquid.

USE - For preparing processed foods (claimed), such as juices, nutritive drinks, soups, jelly, puddings, mayonnaise, yogurt, jams, confectioneries and seasonings.

ADVANTAGE - The fish scale liquid has improved taste, odor and stability. The fish scale liquid is prepared easily and is effectively utilized in preparing processed

foodstuffs.
